

December 2020

RE: Temporary Allocation on Plenamine™

Dear Valued B. Braun Customer,

As part of B. Braun's commitment to maintain transparent communication towards our customers, we need to inform you that B. Braun Medical Inc. is anticipating a temporary allocation on **Plenamine™ 15% Amino Acids Injection 1000 mL** due to a temporary delay in release of Active Pharmaceutical Ingredient (API) impacting product manufacturing. Plenamine™ will be on 65% allocation to our distributors from December 1, 2020 through March 2021. If there are changes to the allocation during that timeframe, you will be notified.

Please refer to the product description below:

Product Code	Product Description	Case Quantity	NDC Number
S4500	Plenamine™ 15% Amino Acids Injection PBP (Pharmacy Bulk Pack) 1000 mL	8	00264-4500-00

In the meantime, we recommend to use the following **product substitutes**:

Product Code	Product Description	Case Quantity	NDC Number
2B6189	15% Clinisol – Amino Acid Injection 2000 mL	6	0338-0502-06
2B6187	15% Clinisol – Amino Acid Injection 500 mL	24	0338-0502-03
717117	Aminosyn™ II, 15% 2000 mL	6	0990-7171-17

We apologize for any inconvenience and are working diligently to ensure this issue is resolved as quickly as possible. For more information or questions, please contact your local sales representative or our Medical Affairs team at 1-800-854-6851 or email medinfo.us@bbraunusa.com.

Sincerely,

Mike Connolly
Director of Marketing – Nutrition, Compounding & Pharmacy Admixture
