

November 16, 2021

Dear Valued Customer,

We continue to experience unanticipated manufacturing delays from our third-party supplier which are affecting the availability of INFUVITE Single-dose Multivitamin Injections. The result of this ongoing issue is the need to temporarily adjust current allocation levels effective immediately. The revised allocation levels will remain in place until we are confident in the ability of our third-party supplier to increase, and maintain, supply on a consistent basis.

We understand the significant impact this has to patients that rely on Parenteral Nutrition, and we continue to work diligently with all parties involved to return to a more normalized situation as soon as possible. Please see the table below for updated allocation limits.

| Product Description | Product Code | NDC | Allocation |
|--|--------------|---------------|----------------------|
| INFUVITE Adult, Multiple Vitamins for infusion. Single dose Package, Contains 5 each of Vial 1 (5 mL) and Vial 2 (5 mL) | 2A9018 | 05464-3564-91 | 85% |
| INFUVITE Pediatric, Multiple Vitamins for infusion. Single dose Package, Contains 5 each of Vial 1 (4mL) and Vial 2 (1 mL) | 2A9008 | 05464-3564-61 | 60% |
| INFUVITE Adult, Multiple Vitamins for infusion. Single dose Package, Contains 5 each of Vial 1 (5 mL) and Vial 2 (5 mL) | 2A9018NP | 54643-9007-1 | Not Available |
| INFUVITE Adult, Multiple Vitamins for infusion. Single dose Package, Contains 5 each of Vial 1 (5 mL) and Vial 2 (5 mL) | 2A9018PRORX | 54643-7862-1 | |

New allocation levels are based on total single dose demand, calculated from historical (May 2021 – October 2021) usage of INFUVITE. Please note that if you purchase through a wholesaler, the application of these allocation limits may vary by organization. Additionally, to ensure fair and balanced access to the limited supply for all customers, all back orders in the system through 11/15/21 will be cancelled.

For your reference, ASPEN's "2020 Parenteral Nutrition Multivitamin Product Shortage Considerations" document, approved by the Clinical Practice Committee and ASPEN Board of Directors, has been developed to assist clinicians in addressing PN shortages for their patients. The document can be accessed at www.nutritioncare.org or by clicking [HERE](#).

We recognize the importance of supply continuity in patient care and are exploring all options with our third-party supplier to resolve the situation as well as maintaining ongoing communication with the FDA. We are committed to transparently and proactively communicating any changes in supply to you. In the meantime, to ensure you have the information you need readily available, please visit the [Supply Resources](#) page (<https://ushospitalproducts.baxter.com/baxter-supply-resources>) on our website and download our Supply Availability Report to access the latest information on product supply. Please contact your Baxter representative or the Center for Service at 1-888-229-0001 with any questions.

Sincerely,
