

August 31, 2021

Dear Valued Customer,

In line with our letter dated June 8, 2021, regarding INFUVITE supply, we are adjusting our allocation on **INFUVITE Adult** down to 75%, effective today. Even though we are still experiencing constraints due to third-party manufacturing issues, we have been able to secure additional supply of **INFUVITE Pediatric** and will maintain its allocation at 100% through September. Please note, given the dynamic supply situation of INFUVITE, this decision may change.

We understand the critical importance of supply continuity in patient care and are exploring all options to resolve the shortage, including working with our third-party supplier, remaining in ongoing communication with the FDA and assessing alternate supply options. We will continue to provide you with updates as they occur.

Table A | INFUVITE Allocation Schedule

Product Description	Product Code	NDC	Group Allocation Timing	
			Through 9/30/21	10/01/21 until further notice
INFUVITE Adult, Multiple Vitamins for infusion. Single dose Package, Contains 5 each of Vial 1 (5 mL) and Vial 2 (5 mL)	2A9018	05464-3564-91	75%
