Dear Valued Customer,

Reaching out to provide you with an update related to Omegaven supply. We understand the criticality of Omegaven in nutrition care of the tiniest patients and are doing everything possible to resolve supply.

- Omegaven 100ml vial is readily available. We anticipate continued releases that will keep healthy inventory levels moving forward.
- Omegaven 50ml vial is currently on backorder. We estimate a backorder until mid-October due to a production delay. There is a limited amount of safety stock available for emergent requests.

Product Description	Product Code	National Drug Code (NDC)
