Dear Valued Customer,

As you may know, the global health care supply chain continues to be challenged due to COVID-19. As a result of ongoing logistical delays and increased demand our intermittent, short term supply interruptions for SMOFlipid will continue through 2021. Based on current projections we anticipate more stability on the 500ml & 1000ml bag sizes and are optimistic that all SMOFlipid supply challenges will be resolved by early 2022. Our team is working diligently to release product as soon as possible and will be prioritizing critical orders.

We sincerely apologize for this inconvenience and truly appreciate your support as we work through this challenging time. If you have any further questions, please feel free to reach out to your local PN Sales Specialist.
